DSA Training Program Overview

AliAzad Networks offers a **comprehensive Data Structures & Algorithms (DSA) training program** designed to transform coding enthusiasts into proficient problem solvers.

Our **12-week structured program** covers everything from programming basics to advanced algorithms, emphasizing **practical problem-solving and real-world implementation**.

- ♦ Updated curriculum aligned with **FAANG & product-based company interviews**
- ♦ Personalized **1:1 mentorship & doubt-clearing sessions**
- ♦ Hands-on practice with **200+ curated problems**
- ♦ **Mock interviews & feedback sessions** to sharpen performance

Program Metrics

- **Program Duration:** 12 Weeks
- **Weekly Commitment:** 8–10 Hours
- **Practice Problems:** 200+
- **Mock Interviews:** 5+
- **Live Sessions:** 3/Week
- **Success Rate:** 92.5%

Target Audience

- College Students (B.Tech / M.Tech)
- Job Seekers & Freshers
- Working Professionals
- Competitive Programmers

Comprehensive Training Programs

DSA Foundation Course

- Basic to Advanced Data Structures
- Time & Space Complexity
- Weekly Coding Challenges
- Regular Progress Assessments
- 600+ Practice Problems

Interview Preparation

- Mock Interview Sessions
- Company-specific Question Banks
- Real-time Coding Simulations
- Negotiation Strategy Guidance
- Post-interview Feedback

Competitive Programming

- Advanced Algorithm Techniques
- Contest Strategy & Time Management
- Platform-specific Training
- Optimization Techniques

1:1 Mentorship

- Personalized Learning Plan
- Code Explanation & Comments
- Portfolio Development
- Continuous Progress Tracking
- Unlimited Doubt Support

Curriculum Overview

Phase 1: Foundation Building

- ① Programming Fundamentals (Syntax, Complexity, Big-O, Problem-Solving)
- ② Basic Data Structures (Arrays, Strings, Linked Lists, Stacks, Queues, Hash Tables)

Phase 2: Intermediate Concepts

- ③ Trees & Graphs (Binary Trees, BST, Traversals, Algorithms)
- ④ Advanced Algorithms (Sorting, Searching, Recursion, Backtracking)

Phase 3: Advanced Topics

- ⑤ Dynamic Programming (Memoization, Tabulation, Classic DP Problems, Patterns)
- ⑥ Interview Preparation (Mock Interviews, Company-specific Prep, System Design Basics, Behavioral Questions)

OUR TRAINING EXPERTISE

Core Programming & DSA

- ♦ C++ & Java – Strong foundation for coding interviews
- ♦ Python – Beginner-friendly and versatile for problem-solving
- ♦ Data Structures – Arrays, Linked Lists, Stacks, Queues, Trees, Graphs
- ♦ Algorithms – Sorting, Searching, Dynamic Programming, Greedy, Backtracking
- ♦ System Design Basics – High-level problem-solving for real-world projects

Competitive Programming

- ♦ Problem-Solving Techniques – Breaking down complex problems
- ♦ CP Platforms Training – LeetCode, Codeforces, HackerRank, CodeChef
- ♦ Time & Space Complexity – Writing optimized code under constraints
- ♦ Contest Preparation – Mock tests and live coding practice

Interview Preparation

- ♦ DSA for Product-Based Companies – FAANG/MAANG readiness
- ♦ Mock Interviews – Technical + HR practice
- ♦ Resume Building – Highlighting coding & projects effectively
- ♦ Soft Skills Training – Communication & problem explanation

OUR TRAINING METHODOLOGY

Phase 1: Foundation Building 🎯

- Core Programming Concepts
- Intro to Problem Solving
- Hands-on Coding Exercises

Phase 2: Advanced DSA Concepts 🔑

- Trees, Graphs, Heaps, Tries
- Dynamic Programming & Backtracking
- Advanced Problem Sets

Phase 3: Competitive Programming & Mock Tests ⚡

- Weekly Competitive Coding Challenges
- Contest Simulation & Rankings
- Live Problem-Solving Sessions

Phase 4: Interview Readiness 🚀

- Mock Technical Interviews
- Resume & Career Guidance
- Final Project Presentation

TRAINING TRACKING & COMMUNICATION

- ✓ Weekly Assignments – Progress evaluation
- ✓ Regular Code Reviews – Improving coding style
- ✓ Student Dashboard – Track performance & ranks
- ✓ Dedicated Mentor Support – 24/7 doubt resolution
- ✓ Monthly Progress Reports – Parent & student updates

SUCCESS METRICS

- ★ 4.8/5 Average student rating
- 🎯 95% Students improved problem-solving by 3x
- ⚡ 80% Got placed in top companies within 6 months
- 🏆 100% Students completed 500+ DSA problems

WHY CHOOSE ALIAZAD NETWORKS

Proven Results

- 1000+ Problems solved by our trainees
- 50+ Students placed in product-based companies
- 98% Interview success rate

Expert Trainers

- Trainers with 5+ years in CP & DSA
- Worked with top MNCs & startups
- Experience mentoring students for MAANG

Hands-on Learning

- Live coding practice
- Problem-solving marathons
- Industry-level assignments

Career-Oriented

- FAANG/MAANG-focused preparation
- End-to-end guidance (DSA + System Design + Soft Skills)
- Internship & Placement support

GET STARTED WITH ALIAZAD NETWORKS

Free Consultation Process

Step 1: Initial Discussion

- **30-minute** free consultation call
- **Requirement Analysis** - Understanding your business needs
- **Technical Feasibility** - Assessing project scope
- **Preliminary Timeline** - Initial project estimation
- **No Commitment** - Completely obligation-free

Step 2: Detailed Proposal

- **Comprehensive Project Plan** - Detailed scope and methodology
- **Technical Architecture** - System design and technology stack
- **Accurate Timeline** - Phase-wise delivery schedule
- **Transparent Pricing** - Fixed-price or time & material options
- **Risk Assessment** - Potential challenges and mitigation strategies

Step 3: Project Kickoff

- **Contract Finalization** - Clear terms and conditions
- **Team Introduction** - Meet your dedicated development team
- **Project Setup** - Development environment and tools setup
- **Communication Plan** - Regular update and feedback schedule
- **First Sprint Planning** - Immediate next steps and deliverables

Contact Information

 **Website:** www.aliazadnetworks.com

 **Email:** contact@aliazadnetworks.com

 **Phone:** +91-9636463361

 **Address:** Indranagar, Bangalore, Karnataka 560038, India

 **Let's discuss your project requirements and transform your ideas into reality!**

SUCCESS METRICS & CLIENT TESTIMONIALS

Our Performance Statistics

- ★ 4.9/5 Average client satisfaction rating
 - 🎯 98% On-time project delivery rate
 - 🔒 100% Security compliance record
 - ⚡ 24hrs Average response time to client queries
 - 🏆 95% Client retention rate
-

Ready to transform your business with cutting-edge Academic Project Solutions?
